Global Ground Support Holds Demo Days for New GSE Products & Services

Olathe, Kansas – July 30, 2024, and July 31, 2024 – Global Ground Support, a leader in innovative aviation ground support equipment solutions, held its inaugural event, **Demo Days**, July 30th and 31st at their facility in Olathe, Kansas.

Event Highlights:

- **Live Demonstrations:** Attendees experienced the latest in Global's live demonstrations showcasing cutting-edge technology and efficiency with the new Glycol Recovery Vehicles (GRV 800 and GRV 2000), as well as the G-1200 Regional Aircraft Deicer.
- **Expert Presentations:** The tenured team of industry experts presented on the operation, maintenance, and sustainable products and practices Global's team offers.
- **Networking Opportunities:** This event connected industry professionals from across the aviation industry, military, commercial, domestic and international.

Global Ground Support provides high-quality, sustainable ground support equipment solutions. With an emphasis on customer-focused innovation and customer satisfaction, they deliver the right solutions at the right time.
